

CAMPUGET 1753 SAPERAVI

Without sulfites

Grape : Saperavi – Originating from Georgia, the birthplace of wine, where this grape variety has been cultivated for centuries.

Vinification: Traditional and sulfite-free. Vinification without added sulfites preserves the wine's authenticity, allowing the grape variety and terroir to fully express themselves. This approach requires great rigor and precise expertise to deliver a balanced, lively wine rich in aromas. A

choice for those seeking sincere, expressive wines that are faithful to their origins.

Its garnet color with purplish highlights is a first indication of its powerful character. The nose opens with notes of morello cherry and licorice, before giving way to jammy black fruits and a hint of sweet spices.

On the palate, the balance is remarkable: a round and silky attack, followed by a beautiful tannic structure. Aromas of cherry, blackberry, and licorice develop elegantly, supported by pleasant tannins.

Aging: Consume immediately after bottling.

Food and wine pairing: Enjoy with grilled or roasted red meat, or a mildly spiced stew.
